

Your Skin Care Routine

With Epiduo® Forte (adapalene and benzoyl peroxide) Gel, 0.3%/2.5%

Pump available
in 45g

With Epiduo Forte Gel, incorporating acne treatment into your daily routine is simple. It's a once-a-day treatment that can be used whenever it fits into your schedule based on your doctor's directions.

Making Epiduo Forte Gel part of your routine may help you stick with treatment and get the best results.

1 Cleanse

Wash your face with a gentle, non-soap cleanser like Cetaphil® PRO Oil Removing Foam Wash or a wash recommended by your dermatologist.

Pat with a soft towel, but don't scrub.

2 Treat With Epiduo Forte Gel

Use a small amount of Epiduo Forte Gel, about the size of a pea, and spread a thin layer, over each of the affected areas of your face (forehead, chin, and each cheek). Avoid the areas around your eyes and lips.

Wash your hands after you apply the medicine. Wait for gel to dry completely before changing clothes.

And remember: Adding more Epiduo Forte Gel won't speed up the process and could cause skin irritation.

3 Protect and Moisturize

Apply a gentle moisturizer during the day, preferably one with SPF protection, like Cetaphil® PRO Oil Absorbing Moisturizer with Sunscreen Broad Spectrum SPF 30.

Remember, it's important you follow your doctor's instructions.
Do your part to help your skin look and feel better!

Important Safety Information

Indication: Epiduo® Forte (adapalene and benzoyl peroxide) Gel, 0.3%/2.5% is indicated for the topical treatment of acne vulgaris. **Adverse Events:** In the pivotal study, the most commonly reported adverse reactions ($\geq 1\%$) in patients treated with Epiduo Forte Gel were skin irritation, eczema, atopic dermatitis and skin burning sensation. **Warnings/Precautions:** Patients using Epiduo Forte Gel should avoid exposure to sunlight and sunlamps and wear sunscreen when sun exposure cannot be avoided. Erythema, scaling, dryness, stinging/burning, irritant and allergic contact dermatitis may occur with use of Epiduo Forte Gel and may necessitate discontinuation. When applying Epiduo Forte Gel, care should be taken to avoid the eyes, lips and mucous membranes.

Things Just Got Even Simpler.
